Nairobi, Kenya | Open to global roles and relocation
jazzyy@gmail.com | +254 700 689874 | linkedin.com/in/nii-amon-dsane-69737031a

Profile

Product and technology executive with 20 years of experience building digital products, platforms and technology organisations across fintech, marketplaces, digital identity, digital health, media and social commerce. Has led Product, Engineering and IT, while remaining hands-on in system architecture and software development. Experienced working with founders and executive teams from early-stage businesses through large-scale national infrastructure.

Core capabilities

Product strategy and roadmaps | Product and engineering leadership | Technical architecture | Organisation design and hiring | Digital platforms and marketplaces | Payments and remittances | AI and LLM systems | Systems integration | Software delivery | Executive leadership

Experience

Sellogram | Nairobi, Kenya

Co-founder | Jul 2025 - Present

Building a work agent for businesses selling through Instagram, Facebook and WhatsApp, covering product discovery, customer conversations, orders, payments and delivery workflows.

Babygoods | Nairobi, Kenya

Co-founder | Jan 2025 - Present

Marketplace connecting parents who have safe, clean used baby and child items with buyers.

Peach Tech Ltd | Nairobi, Kenya

Chief Technology Officer | Dec 2023 - Mar 2025

- Led Product, Engineering and IT as an executive-team member for Kenya's leading managed used-car marketplace.
- Defined product and technology strategy and led research and product design for a broader marketplace operating system.
- Led delivery of a new customer web application and process-automation tools for vehicle intake and assessment; hired and managed Engineering Managers.

Bridge Technologies Limited | Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 - Jan 2023

- Set product and technology strategy for API-driven payments, remittances, wallets and currency-swap services.
- Delivered an MTN Group and MFS Africa cross-border remittance integration with potential reach to approximately 70M subscribers in Nigeria, plus a KCB integration for outbound remittances.
- Recruited the engineering organisation and led delivery of two consumer apps, a merchant app and APIs spanning payments, remittances, wallets and currency swaps.

Living Goods | Nairobi, Kenya

Director, Software Engineering | Oct 2019 - Apr 2021

- Led technology strategy and delivery for direct operations and technical-assistance programmes in digital health.
- Grew a distributed delivery organisation across engineering, data science, QA, design, product and project management and hired and managed Engineering Managers.

Kwara (Kwaduara Limited) | Nairobi, Kenya

Chief Technology Officer | Oct 2018 - May 2019

- Led a five-person product and engineering team for a core-banking and operations platform serving cooperative financial institutions.
- Defined architecture and the technical roadmap while remaining hands-on in software development.

Radio Africa Group | Nairobi, Kenya

Group Head of Development | Jun 2016 - Oct 2018

- Led a 12-person digital-product team and advised the Group CEO and C-level leaders on the transition to a digital-first media business.
- Architected music-streaming, content-ingestion and mobile-money billing systems using Kotlin, Akka, message queues and Safaricom integrations.

SafariFone Ltd | Djibouti

Software Architecture Consultant | 2015 - 2016

Designed the architecture for a B2B commerce and trade-finance platform linking distributors and retailers, including Islamic-finance workflows, mobile payments and web/SMS/USSD channels.

MFieldwork Ltd | Ghana / Kenya

Software Consultant | 2013 - 2015

Built web software for a mobile field-data platform used by development and humanitarian organisations for monitoring, evaluation and field research.

GenKey Africa Ltd | Accra, Ghana

Lead Software Developer | Sep 2010 - Sep 2012

- Led development of biometric voter-register adjudication software and contributed ABIS systems to Ghana's 2012 biometric voter-registration programme.
- The national programme registered approximately 14M voters using 6,500 biometric registration kits; worked directly with the Electoral Commission on demonstrations, technical delivery and trainer preparation.

CoreNett Ltd | Accra, Ghana

Head of Software Development | Mar 2007 - Sep 2010

Led architecture and product development for mobile-wallet, cardless-ATM, electronic-payment and voucher products using Java, Ruby on Rails and C.

Rancard Solutions Ltd | Accra, Ghana

Product Manager, Mobile Platforms | Jan 2006 - Mar 2007

Managed telco-facing mobile products and designed and implemented the SMS-voting system used for West African Idols across multiple African countries.

Technology

Java | Ruby / Rails | Python | TypeScript | Kotlin | Erlang/OTP | Elixir | Go | Spring Boot | RabbitMQ / AMQP | LLMs | RAG | DSPy | LangGraph | Distributed systems and integration architecture

Education

Ashesi University College, Accra, Ghana - B.Sc. Computer Science, Cum Laude | 2005
