

Nii Amon Dsane

Engineering Executive | Identity, Field Operations and Platform Delivery

Nairobi, Kenya · jazzyy@gmail.com · +254 700 689874 · <https://www.linkedin.com/in/nii-amon-dsane-69737031a/>

Executive profile

Technology executive and hands-on engineer with 20 years of experience building identity, field-data, operational and financial platforms across Africa. Combines national biometric-programme experience, mobile field-data delivery, API architecture and executive leadership of Product, Engineering and IT. Brings 10+ years of production Java, Kotlin experience and 10+ years hiring and managing Engineering Managers. For the past two years, has made language models part of research, product definition, architecture, implementation and operational delivery.

Selected impact

- Led product development for Genkey's Biometric Voter Register Adjudication Client and supported Ghana's national biometric voter-registration programme.
- Built the front end for MFieldwork, a mobile field-data platform used by NGOs and development organisations.
- Led delivery systems for direct operations and technical-assistance programmes at Living Goods across 6 product and delivery disciplines.
- Designed and delivered marketplace intake and assessment tools at Peach while leading Product, Engineering and IT.

Core expertise

Identity and biometric systems · Field-data products · Operational platforms · APIs and integrations · Java · Kotlin · Spring Boot · Web and mobile delivery · AI-enabled workflow design · LLMs and RAG · Structured workflows · Architecture and roadmaps · Engineering Manager leadership · Multi-country programmes

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

CTO | Dec 2023 – Mar 2025

- Led Product, Engineering and IT for Kenya's leading managed used-car marketplace as a member of the executive team.
- Researched, designed and led delivery of a web application and internal tools for vehicle intake and assessment, forming the first parts of the marketplace operating system.
- Hired and managed Engineering Managers while directing product strategy, architecture and delivery.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Set strategy, architecture and roadmap for API, mobile and web services in a regulated fintech business.
- Designed a microservices and API architecture for consumer, merchant, payment, wallet and remittance products.
- Built the organisation structure and hired and managed Engineering Managers and engineers.

Living Goods // Nairobi, Kenya**Director, Software Engineering** | Oct 2019 – Apr 2021

- Led technology strategy and systems delivery for direct operations and technical-assistance programmes.
- Worked with the C-suite to identify products and operational processes from programme data.
- Grew a distributed organisation across engineering, data science, QA, design, product and project management and established its software delivery lifecycle.

Kwara // Nairobi, Kenya**CTO** | Oct 2018 – May 2019

- Led architecture and delivery for a core-banking and daily-operations platform used by cooperative financial institutions and their members.
- Led 5 developers and designers and partnered with the CEO on product, sales, people and performance.

Radio Africa Limited // Nairobi, Kenya**Group Head of Development** | Jun 2016 – Oct 2018

- Led 12 developers, designers and web administrators delivering digital products and production services across the group.
- Architected a Kotlin-based streaming platform using microservices, Akka, Spark, serverless computing and message queues.
- Hired and managed Engineering Managers and advised the Group CEO and C-suite on digital transformation.

Identity and field-platform experience**Consulting // Djibouti, Ghana and Kenya****Consultant** | Sep 2013 – May 2016

- Built the front end for MFieldwork, a platform for mobile field-data capture, server-side analysis and visualisation used by NGOs and development organisations.
- Designed and implemented a trade-finance e-commerce platform for SafariFone under Islamic-banking rules.

Genkey Africa Ltd // Accra, Ghana**Lead Software Developer** | Sep 2010 – Sep 2012

- Led development of the Biometric Voter Register Adjudication Client, including process models, interfaces and product delivery.
- Developed Genkey ABIS software for Ghana's Electoral Commission, delivered demonstrations and trained registration-kit trainers.
- Supported bidding and AFIS client work for Kenya's IEBC biometric voter-registration programme.

Earlier experience**CoreNett, Head of Software Development** | 2007 – 2010 — Led architecture for payments, cardless ATM and mobile-wallet products.**Rancard Solutions, Product Manager, Mobile Platforms** | 2006 – 2007 — Built and supported live telecom messaging platforms.**Education:** B.Sc. Computer Science (Cum Laude), Ashesi University College — Dec 2005
