

Nii Amon Dsane

Fintech Engineering Executive | Payments, Banking and API Platforms

Nairobi, Kenya · jazzyy@gmail.com · +254 700 689874 · <https://www.linkedin.com/in/nii-amon-dsane-69737031a/>

Executive profile

Technology executive and hands-on engineer with 20 years of experience building and leading digital products across payments, banking, remittances, telecoms and marketplaces in Africa. Brings 10+ years of production Java, Kotlin experience and 10+ years hiring and managing Engineering Managers. Has led payment architecture, API platforms, cross-border integrations, core-banking products and distributed engineering organisations from strategy through production delivery. For the past two years, has made language models part of research, product definition, architecture, implementation and operational delivery.

Selected impact

- Delivered MTN Group and MFS Africa integration for a cross-border remittance product intended for 70M subscribers in Nigeria.
- Led delivery of 2 consumer apps, 1 merchant app and APIs for payments, remittances, wallets and currency swaps at Bridge.
- Led architecture and delivery of core-banking operations at Kwara and card payment, cardless ATM and mobile-wallet products at CoreNett.
- Built and led engineering organisations across Peach, Bridge, Living Goods and Radio Africa, including hiring and managing Engineering Managers.

Core expertise

Payment systems · Banking platforms · Cross-border remittances · API-first products · Java · Kotlin · Spring Boot · Microservices · AMQP and RabbitMQ · AI-enabled product delivery · LLMs and RAG · Architecture and roadmaps · Engineering organisation design · Executive and commercial partnership

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

CTO | Dec 2023 – Mar 2025

- Led Product, Engineering and IT for Kenya's leading managed used-car marketplace as a member of the executive team.
- Defined technology and product strategy and led delivery of the web application and process-automation tools that formed the first parts of the marketplace operating system.
- Hired and managed Engineering Managers while directing architecture, delivery and technology operations.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Set the strategy, roadmap and architecture for an API-driven fintech business.
- Delivered MTN Group/MFS Africa and KCB integrations for cross-border remittances.
- Rebuilt the team and led delivery of 2 consumer apps, a merchant app and APIs for payments, remittances, wallets and currency swaps.
- Designed the microservices architecture and hired and managed Engineering Managers and engineers.

Living Goods // Nairobi, Kenya**Director, Software Engineering** | Oct 2019 – Apr 2021

- Led technology strategy execution and delivery across engineering, data science, QA, design, product and project management.
- Grew a geographically distributed organisation, hired and managed Engineering Managers and established an agile software delivery lifecycle with continuous delivery.

Kwara // Nairobi, Kenya**CTO** | Oct 2018 – May 2019

- Owned architecture and technical delivery for a core-banking and daily-operations platform used by cooperative financial institutions and their members.
- Led 5 developers and designers, set performance targets and contributed directly to software development.
- Partnered with the CEO on product, marketing, sales, people and performance decisions.

Radio Africa Limited // Nairobi, Kenya**Group Head of Development** | Jun 2016 – Oct 2018

- Led 12 developers, designers and web administrators delivering digital products across the media group.
- Architected a Kotlin-based music-streaming service using microservices, Akka, Spark, serverless computing and message queues.
- Built payment and billing services on Kill Bill, Safaricom SDP and mobile money.
- Hired and managed Engineering Managers and advised the Group CEO and C-suite on digital-product strategy.

Earlier product and engineering experience**Consultant** | 2013 – 2016 — Built mobile field-data and trade-finance products in Djibouti, Ghana and Kenya.**Genkey Africa, Lead Software Developer** | 2010 – 2012 — Led biometric product development for government identity programmes.**CoreNett, Head of Software Development** | 2007 – 2010 — Owned architecture and delivery for card payments, electronic vouchers, Java-based cardless ATM services and a mobile wallet modelled after M-Pesa.**Rancard Solutions, Product Manager, Mobile Platforms** | 2006 – 2007 — Built and supported live messaging products for telecoms and media.**Education:** B.Sc. Computer Science (Cum Laude), Ashesi University College — Dec 2005
