

Nii Amon Dsane

Product and Engineering Executive | Commercial and Operational Platforms

Nairobi, Kenya · jazzyy@gmail.com · +254 700 689874 · <https://www.linkedin.com/in/nii-amon-dsane-69737031a/>

Executive profile

Product and technology executive with 20 years of experience building the systems that commercial and operating teams use to run businesses. Has led marketplace operations, core banking, payments, merchant products, media platforms and internal process automation. Combines executive product leadership with hands-on Java and Kotlin engineering and 10+ years hiring and managing Engineering Managers. For the past two years, has made language models part of research, product definition, architecture, implementation and operational delivery.

Selected impact

- Led Product, Engineering and IT at Peach and delivered the first components of the operating system behind Kenya's leading managed used-car marketplace.
- Led delivery of consumer and merchant apps plus APIs for payments, remittances, wallets and currency swaps at Bridge.
- Led a 12-person shared digital-product organisation at Radio Africa, serving business units across the group while advising the Group CEO and C-suite.
- Owned architecture and delivery for core-banking operations at Kwara and payment, cardless ATM and mobile-wallet products at CoreNett.

Commercial and operational platforms · Marketplace systems · Merchant products · Payments and wallets · Product strategy · Process automation · AI-enabled product delivery · LLMs and RAG · Java · Kotlin · Spring Boot · APIs and integrations · Organisation design · Engineering Manager leadership · Executive partnership

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

CTO | Dec 2023 – Mar 2025

- Led Product, Engineering and IT for Kenya's leading managed, closed-loop used-car marketplace as a member of the executive team.
- Defined technology and product strategy around the marketplace's commercial and operating model.
- Researched, designed and led delivery of a new web application and internal tools for vehicle intake and assessment, forming the first components of the marketplace operating system.
- Hired and managed Engineering Managers while directing architecture, delivery and technology operations.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Defined the business, product and technology strategy with the founders.
- Rebuilt the engineering team and led delivery of 2 consumer apps, a merchant portal and APIs for payments, remittances, wallets and currency swaps.
- Delivered MTN Group/MFS Africa and KCB integrations for cross-border remittances.
- Hired and managed Engineering Managers and engineers.

Living Goods // Nairobi, Kenya**Director, Software Engineering** | Oct 2019 – Apr 2021

- Worked with the C-suite to identify products and process improvements from direct-operations and technical-assistance data.
- Grew a distributed organisation across engineering, data science, QA, design, product and project management.
- Hired and managed Engineering Managers and established an agile software delivery lifecycle.

Kwara // Nairobi, Kenya**CTO** | Oct 2018 – May 2019

- Led architecture and delivery for a core-banking and daily-operations platform serving cooperative financial institutions and their members.
- Led 5 developers and designers and partnered with the CEO on marketing, sales, people and performance management.

Radio Africa Limited // Nairobi, Kenya**Group Head of Development** | Jun 2016 – Oct 2018

- Led 12 developers, designers and web administrators operating as a shared digital-product and production-services group.
- Delivered products for business units across the group and advised the Group CEO and C-suite on the shift to a digital-first media business.
- Architected a Kotlin-based streaming platform and built payment and billing services connected to Safaricom SDP and mobile money.
- Hired and managed Engineering Managers and ran weekly technical training.
