

Nii Amon Dsane

Product and Engineering Executive | Consumer, Marketplace and Fintech Products

Nairobi, Kenya · jazzyy@gmail.com · +254 700 689874 · <https://www.linkedin.com/in/nii-amon-dsane-69737031a/>

Executive profile

Product and technology executive with 20 years of experience building consumer, marketplace, media and financial products across Africa. Has owned product strategy, technical architecture, customer-facing web and mobile delivery and the engineering organisations behind them. Brings 10+ years of production Java, Kotlin experience and 10+ years hiring and managing Engineering Managers. For the past two years, has made language models part of research, product definition, architecture, implementation and operational delivery.

Selected impact

- Led delivery of 2 consumer apps, a merchant app and APIs for payments, remittances, wallets and currency swaps at Bridge.
- Led Product, Engineering and IT at Peach and delivered the first components of the operating system behind Kenya's leading managed used-car marketplace.
- Architected a Kotlin-based music-streaming platform and mobile-money billing service while leading a 12-person digital-product team at Radio Africa.
- Built live consumer messaging products at Rancard, including multi-country SMS voting for West African Idols.

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

CTO | Dec 2023 – Mar 2025

- Led Product, Engineering and IT for Kenya's leading managed, closed-loop used-car marketplace as a member of the executive team.
- Defined product and technology strategy around the end-to-end marketplace experience.
- Researched, designed and led delivery of a new web application and internal tools for vehicle intake and assessment, forming the first parts of the marketplace operating system.
- Hired and managed Engineering Managers while directing architecture, delivery and technology operations.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Set product and technology strategy for an API-driven fintech business.
- Rebuilt the team and led delivery of Brij Send, Brij Mobile, a merchant portal and APIs for payments, remittances, wallets and currency swaps.
- Selected the web and mobile platforms, designed the microservices architecture and created the roadmap.
- Hired and managed Engineering Managers and engineers.

Living Goods // Nairobi, Kenya**Director, Software Engineering** | Oct 2019 – Apr 2021

- Led technology strategy and product delivery across direct operations and technical-assistance programmes.
- Worked with the C-suite to identify new products and processes from programme data.
- Grew a distributed organisation across engineering, data science, QA, design, product and project management and established its delivery lifecycle.

Kwara // Nairobi, Kenya**CTO** | Oct 2018 – May 2019

- Led architecture and delivery for core-banking, daily-operations and member-experience products for cooperative financial institutions.
- Led 5 developers and designers and partnered with the CEO on product, marketing, sales and people.

Radio Africa Limited // Nairobi, Kenya**Group Head of Development** | Jun 2016 – Oct 2018

- Led 12 developers, designers and web administrators delivering consumer digital products across the group.
- Architected a Kotlin-based music-streaming platform using microservices, Akka, Spark, serverless computing and message queues.
- Built a configurable content-ingestion pipeline and payment and billing services connected to Safaricom SDP and mobile money.
- Hired and managed Engineering Managers and advised the Group CEO and C-suite on digital-product strategy.
