

Nii Amon Dsane

CTO | Product, Engineering & Data Leadership

Nairobi, Kenya | jazzyy@gmail.com | +254 700 689874 | [linkedin.com/in/nii-amon-dsane-69737031a](https://www.linkedin.com/in/nii-amon-dsane-69737031a)

Executive profile

CTO and hands-on engineer with 20 years of experience building digital products and production platforms across fintech, digital health, marketplaces, media and national identity systems in Africa. Has led Product, Engineering and IT and managed blended teams spanning software engineering, data science, QA, design and product. Combines technology strategy and organisation leadership with hands-on architecture and software development. Current work includes AI/LLM-enabled products and workflow systems.

Selected impact

- Led Product, Engineering and IT as CTO and an executive-team member at Peach. - Built and led a distributed delivery organisation spanning engineering, data science, QA, design, product and project management at Living Goods. - Architected streaming, data-ingestion and mobile-money billing systems at Radio Africa. - Contributed ABIS and voter-register adjudication systems to Ghana's 2012 biometric registration programme, which registered approximately 14M voters using 6,500 kits. - Built field-data and multi-channel commerce systems across Ghana, Kenya and Djibouti.

Core expertise

Technology strategy and roadmaps | Product and engineering leadership | Software architecture | Data and workflow systems | APIs and systems integration | Multi-channel products: web, mobile, SMS, USSD and messaging | Engineering and data-team leadership | AI and LLM systems | Distributed systems | Python | Java | Ruby / Rails | TypeScript | Kotlin | RabbitMQ / AMQP

Current ventures

Sellogram, Co-founder | Jul 2025 - Present

Building a work agent for businesses selling through Instagram, Facebook and WhatsApp, combining language-model interpretation with deterministic order, payment and delivery workflows.

Babygoods, Co-founder | Jan 2025 - Present

Building a marketplace connecting parents who have safe, clean used baby and child items with buyers.

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

Chief Technology Officer | Dec 2023 - Mar 2025

- Led Product, Engineering and IT as a member of the executive team for a managed used-car marketplace. - Defined product and technology strategy and led functional, user and ethnographic research for a broader marketplace operating system. - Led delivery of a new customer web application and vehicle intake and assessment tools. - Hired and managed Engineering Managers.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 - Jan 2023

- Set product, technology and architecture strategy for payments, remittances, wallets and currency-swap services. - Delivered MTN Group/MFS Africa and KCB integrations for cross-border remittances. - Recruited the engineering organisation and led delivery of 2 consumer apps, a merchant app and APIs spanning payments, remittances, wallets and currency swaps. - Designed the service and integration architecture.

Living Goods // Nairobi, Kenya

Director, Software Engineering | Oct 2019 - Apr 2021

- Led technology strategy and delivery for direct operations and technical-assistance programmes in digital health. - Grew a geographically distributed organisation spanning software engineering, data science, QA, design, product and project management. - Worked with C-suite leaders to identify new products and processes from programme data and operating needs. - Hired and managed Engineering Managers and established the software-delivery lifecycle around agile development and continuous delivery.

Kwara // Nairobi, Kenya

Chief Technology Officer | Oct 2018 - May 2019

- Led a 5-person product and engineering team for a core-banking and operations platform serving cooperative financial institutions. - Defined architecture and the technical roadmap while remaining hands-on in software development. - Partnered with the CEO on product, sales, marketing and people decisions.

Radio Africa Group // Nairobi, Kenya

Group Head of Development | Jun 2016 - Oct 2018

- Led a 12-person digital-product team and advised the Group CEO and C-level leaders on the transition to a digital-first media business. - Architected a music-streaming platform and an asynchronous content-ingestion pipeline with configurable processing capacity using Kotlin, Akka, message queues and serverless infrastructure. - Designed a billing and payments service integrated with Safaricom services and mobile money. - Hired and managed engineering leadership.

Earlier product and engineering experience

SafariFone, Software Architecture Consultant | 2015 - 2016 - Designed a B2B commerce and Islamic trade-finance platform linking distributors and retailers, including mobile payments and web/SMS/USSD channels.

MFeldwork, Software Consultant | 2013 - 2015 - Built web software for a mobile field-data platform used by development and humanitarian organisations for monitoring, evaluation and field research.

GenKey Africa, Lead Software Developer | 2010 - 2012 - Led biometric voter-register adjudication software and contributed ABIS systems to Ghana's national biometric voter-registration programme.

CoreNett, Head of Software Development | 2007 - 2010 - Led architecture and delivery for mobile-wallet, cardless-ATM, electronic-payment and voucher products.

Rancard Solutions, Product Manager, Mobile Platforms | 2006 - 2007 - Managed telco-facing mobile products and built the SMS-voting system used for West African Idols across multiple African countries.

Education: B.Sc. Computer Science (Cum Laude), Ashesi University College - 2005
