

Nii Amon Dsane

Chief Product & Technology Officer | CTO | Product & Engineering Executive

Nairobi, Kenya · Open to global roles and relocation · jazzyy@gmail.com · +254 700 689874 · [linkedin.com/in/nii-amon-dsane-69737031a](https://www.linkedin.com/in/nii-amon-dsane-69737031a)

Executive profile

Product and technology executive with 20 years of experience building digital products, platforms and technology organisations across fintech, marketplaces, digital identity, digital health, media and social commerce. Has led Product, Engineering and IT while remaining hands-on in system architecture and software development. Works comfortably from product strategy and organisation design through architecture and implementation.

Selected impact

- Led Product, Engineering and IT as CTO and an executive-team member at Peach.
- Delivered an MTN Group/MFS Africa cross-border remittance integration with potential reach to approximately 70M subscribers in Nigeria.
- Led a 12-person digital-product team at Radio Africa and a distributed engineering, data, QA, design and product organisation at Living Goods.
- Contributed to Ghana's 2012 biometric voter-registration programme, which registered approximately 14M voters using 6,500 kits.

Core expertise

Product strategy and roadmaps · Product and engineering leadership · Technical architecture · Organisation design and hiring · Marketplaces and commerce · Payments and remittances · AI and LLM systems · Systems integration · Distributed systems · Java · Ruby / Rails · Python · TypeScript · Kotlin

Current ventures

Sellogram, Co-founder | Jul 2025 – Present

Building a work agent for businesses selling through Instagram, Facebook and WhatsApp, covering product discovery, customer conversations, orders, payments and delivery workflows.

Babygoods, Co-founder | Jan 2025 – Present

Marketplace connecting parents who have safe, clean used baby and child items with buyers.

Leadership experience

Peach Tech Ltd // Nairobi, Kenya

Chief Technology Officer | Dec 2023 – Mar 2025

- Led Product, Engineering and IT as an executive-team member for Kenya's leading managed used-car marketplace.
- Defined product and technology strategy and led research and product design for a broader marketplace operating system.
- Led delivery of a new customer web application and process-automation tools for vehicle intake and assessment.
- Hired and managed Engineering Managers.

Bridge Technologies Limited // Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Set product and technology strategy for API-driven payments, remittances, wallets and currency-swap services.
- Delivered MTN Group/MFS Africa and KCB integrations for cross-border remittances.
- Recruited the engineering organisation and led delivery of 2 consumer apps, a merchant app and APIs spanning payments, remittances, wallets and currency swaps.
- Designed the service and integration architecture.

Living Goods // Nairobi, Kenya

Director, Software Engineering | Oct 2019 – Apr 2021

- Led technology strategy and delivery for direct operations and technical-assistance programmes in digital health.
- Grew a distributed organisation spanning engineering, data science, QA, design, product and project management.
- Hired and managed Engineering Managers and established the software-delivery lifecycle around agile development and continuous delivery.

Kwara // Nairobi, Kenya

Chief Technology Officer | Oct 2018 – May 2019

- Led a 5-person product and engineering team for a core-banking and operations platform serving cooperative financial institutions.
- Defined architecture and the technical roadmap while remaining hands-on in software development.
- Partnered with the CEO on product, sales, marketing and people decisions.

Radio Africa Group // Nairobi, Kenya

Group Head of Development | Jun 2016 – Oct 2018

- Led a 12-person digital-product team and advised the Group CEO and C-level leaders on the move to a digital-first media business.
- Architected music-streaming, content-ingestion and mobile-money billing systems using Kotlin, Akka, message queues and Safaricom integrations.
- Hired and managed engineering leadership.

Earlier product and engineering experience

SafariFone, Software Architecture Consultant | 2015 – 2016 — Designed a B2B commerce and Islamic trade-finance platform linking distributors and retailers, with mobile payments and web/SMS/USSD channels.

MFieldwork, Software Consultant | 2013 – 2015 — Built web software for a mobile field-data platform used by development and humanitarian organisations.

GenKey Africa, Lead Software Developer | 2010 – 2012 — Led biometric voter-register adjudication software and contributed ABIS systems to Ghana's national biometric voter-registration programme.

CoreNett, Head of Software Development | 2007 – 2010 — Led architecture and delivery for mobile-wallet, cardless-ATM, electronic-payment and voucher products.

Rancard Solutions, Product Manager, Mobile Platforms | 2006 – 2007 — Managed telco-facing mobile products and built the SMS-voting system used for West African Idols across multiple African countries.

Education: B.Sc. Computer Science (Cum Laude), Ashesi University College — 2005
