

Nii Amon Dsane

VP / Head of Engineering | CTO | Engineering Organisation Builder

Nairobi, Kenya | jazzyy@gmail.com | +254 700 689874 | linkedin.com/in/nii-amon-dsane-69737031a

Summary

Engineering leader with 15+ years building teams, delivery systems and software platforms across fintech, marketplaces, digital health and media. I have led Product, Engineering and IT at executive level, recruited teams, introduced delivery discipline and shipped complex customer and operations products. I am now the co-founder and CEO of Sellogram.

Focus

Engineering strategy • Organisation design • Hiring and leadership development • Product delivery • Software delivery lifecycle • Continuous delivery • Architecture • Security and integration

Experience

Sellogram | Nairobi, Kenya

Co-founder & CEO | Jul 2025 – Present

- Lead the company, product strategy and technical delivery of a work agent for social-commerce sellers.
- Build systems that use seller content to answer customer questions and support orders, payments and deliveries.

Peach Tech Ltd | Nairobi, Kenya

Chief Technology Officer | Dec 2023 – Mar 2025

- Led Product, Engineering and IT within the Technology Group and set technology and product strategy with the executive team.
- Led teams delivering a web app, vehicle intake and assessment tooling, and internal operating systems.

Bridge Technologies Limited | Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Assessed product and engineering gaps, designed the organisation and recruited the team required for delivery.
- Reached 80% completion of two consumer apps, a merchant app and a payments and remittance API suite within 3 months.
- Established architecture, an enterprise security plan and a product roadmap for payments, remittances, wallets and swaps.

Living Goods | Nairobi, Kenya

Director, Software Engineering | Oct 2019 – Apr 2021

- Grew a geographically distributed organisation across engineering, data science, QA, design, product and project management.
- Defined the software delivery lifecycle with agile methods, continuous delivery and continuous improvement.

Radio Africa Limited | Nairobi, Kenya

Group Head of Development | Jun 2016 – Oct 2018

- Led a shared-services team of 12 developers, designers and web administrators.
- Directed digital product development and advised the Group CEO and executive leaders on the move to a digital-first media business.

Earlier leadership experience

- **CTO, Kwara** | 2018–2019 — Led five developers and designers, set technical objectives and mentored the team.
- **Head of Software Development, CoreNett** | 2007–2010 — Owned architecture and software-product development for payment and mobile-money services.
- **Lead Software Developer, Genkey Africa** | 2010–2012 — Led product-development work for biometric voter-registration systems and developed junior engineers.

Technology

Ruby, Python, TypeScript, Kotlin, Java, Rails, Spring Boot, RabbitMQ, Erlang/OTP, Elixir, microservices and enterprise integration patterns.

Education

Ashesi University College, Accra, Ghana — B.Sc. Computer Science, Cum Laude | 2005
