

Nii Amon Dsane

Product & Technology Executive | CTO | Product, Engineering and Operations Leader

Nairobi, Kenya | jazzyy@gmail.com | +254 700 689874 | [linkedin.com/in/nii-amon-dsane-69737031a](https://www.linkedin.com/in/nii-amon-dsane-69737031a)

Summary

Product and technology executive with 15+ years turning business goals into products, platforms and operating systems. I work with founders and executive teams on strategy, customer-facing products, operational tools and the organisations that deliver them. I am the co-founder and CEO of Sellogram, a work agent for social-commerce sellers.

Focus

Product strategy • Product roadmaps • Marketplaces • Payments and remittances • Executive partnership • Operating systems • Technical architecture

Experience

Sellogram | Nairobi, Kenya

Co-founder & CEO | Jul 2025 – Present

- Lead the strategy and delivery of a work agent for sellers on Instagram, Facebook and WhatsApp.
- Shape the product for customer conversations, product discovery, stock questions, orders, payments and deliveries.
- Use shop posts and reels to extract product information and enrich product metadata.

Peach Tech Ltd | Nairobi, Kenya

Chief Technology Officer | Dec 2023 – Mar 2025

- Led the Technology Group across Product, Engineering and IT and defined technology and product strategy as an executive-team member.
- Led delivery of a web app and vehicle intake and assessment tools, the first delivered components of the marketplace operating system.

Bridge Technologies Limited | Nairobi, Kenya

CTO & VP of Engineering | Jul 2022 – Jan 2023

- Partnered with founders to identify market opportunities, product risks and the technology strategy for an API-driven consumer business.
- Delivered a cross-border remittance product for MTN Group and MFS Africa, with potential reach to 70M subscribers in Nigeria.
- Delivered a KCB integration for outbound remittances to Nigeria and a product roadmap for payments, remittances, wallets and swaps.

Living Goods | Nairobi, Kenya

Director, Software Engineering | Oct 2019 – Apr 2021

- Worked with executive leaders to identify products and processes from programme data.
- Led technology delivery for direct operations and technical-assistance programmes in digital health.

Earlier product leadership

- **CTO, Kwara** | 2018–2019 — Led product and technical delivery for a core-banking and operations platform for cooperative financial institutions.
- **Group Head of Development, Radio Africa** | 2016–2018 — Delivered group-wide digital products during a digital-first transition.
- **Product Manager, Rancard** | 2006–2007 — Managed telco-facing mobile platforms and built an SMS-voting system for West African Idols.
- **Head of Software Development, CoreNett** | 2007–2010 — Delivered payment, voucher, cardless-ATM and mobile-wallet products.

Technology

LLMs, product analytics, integration architecture, Ruby, Python, TypeScript, Kotlin, Java, Rails, Spring Boot and RabbitMQ.

Education

Ashesi University College, Accra, Ghana — B.Sc. Computer Science, Cum Laude | 2005
